To: Whom It May Concern

28 February 2019

The British Embassy Chisinau has funded IDIS Viitorul to implement the “*Supporting Improvements in the Public Procurement System in Moldova*” programme from 2018-2019.

IDIS Viitorul have proved to be a reliable partner; providing accurate forecasting; and delivering outputs on time to the agreed target indicators. Their conduct and interaction with other stakeholders has also been of a high standard. The project is still ongoing but we expect no issues regarding its successful completion. We would be glad to work with IDIS Viitorul again in the future.

Best Regards,
